A1 - Controls (1329505) Description

In-Line Water Filter, c/w a 5 micron disposable cartridge. 3/4" threaded inlet and outlet. Pressure relief vent and easy open design.

A2 - Controls (1329505) Shop Drawing

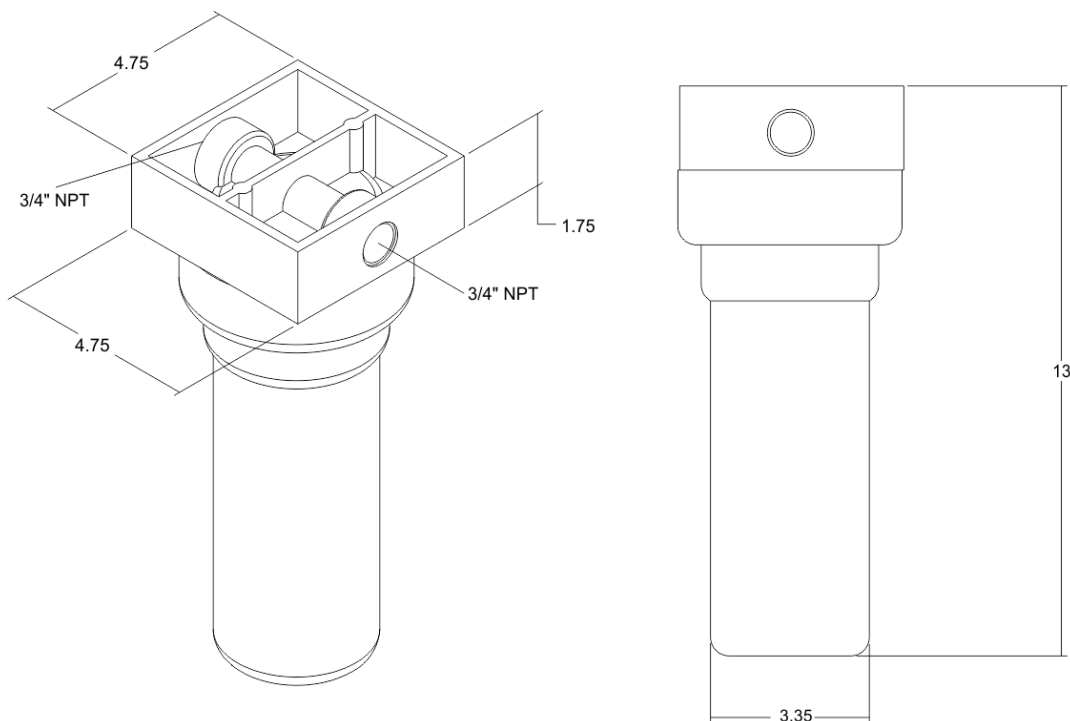

This water filter is designed for use with any potable water source. The filter system can be fitted with a 5 micron (supplied) or 1 micron filter. The filter is used to remove particles before supplying water to the humidifier.

Filter replacement is recommended every 4-6 months or when pressure drop across the filter meets 10psi.

Replacement filters:

5 micron filter cartridge (Condair PN 2573521, Qty 2 included)

1 micron filter cartridge (Condair PN 1329561, Qty 2 included)

Inline Water Filter, c/w Micron disposable
Cartridge, Part# 1329505
